Suncake Solar Kit

Elevate your living space with this compact, efficient, and stylish solar solution that easily integrates into your balcony, swimming pool, terrace, yard, and deck. Suncake is an integrated solar solution designed for urban dwellers and the rental housing community who crave sustainability without technical hassle, as well as clients who want a quick path to solar expansion. The system comprises a set of specially designed all-black PV modules, micro-inverters, adjustable mounting structures, and all cable connections to complete the system. Transform your surroundings into a powerhouse of clean energy while enjoying the outdoors in a stylish and eco-friendly setting.
